CITY UNIVERSITY OF HONG KONG
COLLEGE OF COMPUTING

2025 Summer Research Workshop

Objective

The 2025 Summer Research Workshop is a comprehensive one-month programme designed to empower top-tier bachelor's and master's students from institutions outside Hong Kong with advanced research skills and broaden their intellectual horizons. Participants will engage in dynamic dialogues with professors from the Department of Biostatistics, Department of Computer Science, and Department of Data Science within the College of Computing. Students will also immerse themselves in the vibrant campus life of the University and the diverse cultural landscape of Hong Kong through various cultural visits and social activities.

Activities Overview

- **Academic**: Seminars, workshops, and individual guidance for research projects
- **Campus Exploration**: Guided campus tours including laboratories and research facilities
- **Social Engagement**: On/Off-campus activities, cultural visits, and networking gatherings

Duration

7 July 2025 – 31 July 2025

- 7 to 18 July 2025: participating students stay at CityUHK
- 19 to 31 July 2025: participating students return to their home town and connect with the CityUHK faculty members on research project via online platform

Delivery Mode

Face-to-face at CityUHK (7 to 18 July 2025) and online (19 to 31 July 2025)

Programme Type Non-credit baring

Programme Fee Free

Eligibility Criteria

Bachelor's and master's students from a recognized institution other than Hong Kong who have a strong academic record and a keen interest in research and PhD studies at CityUHK in the

research areas of Artificial Intelligence, Computer Science, Cybersecurity, Data Science, or Statistics.

Accommodation

Students will be provided complimentary accommodations at the Student Hall of Residence. Each room will be shared by two students for the duration of stay at CityUHK. In such case Student Hall of Residence is unavailable, the students will arrange off-campus accommodation by themselves with subsidies from the College.

Insurance

Students are required to prepare their own insurance and bear the cost of the insurance.

Transportation Subsidy

Each participant will be provided a subsidy for transportation according to the location of departure to Hong Kong, and based on actual expenses with supporting documents provided.

(a) Places in the Guangdong Province and Macau SAR: maximum amount of HK$1,000

(b) Places other than Guangdong Province of the Mainland: maximum amount of HK$2,000

(c) Asian countries/areas excluding the Mainland and Macau SAR: maximum amount of HK$2,000

(d) Countries and areas other than (a), (b) and (c): maximum amount of HK$4,000

Application Deadline

23 May 2025 (Friday)

Quota: 15
